

I am concerned that the national association of banks is requesting that the FCC weaken Wisconsin's NO-Call list. I choose to have a telephone in my home for my convenience. I work third shift and have been woken by telemarketing calls in the past. I signed up for the NO-call list to end the numerous calls I received on an almost daily basis. I am urging you NOT to allow the national association of banks or any other group any more freedom to use the telephone which I pay for, for their own benefit. Thank you. Michael D. Quade
